New Store Hours:

9:00 a.m.– 5:00 p.m.

We hope you have enjoyed your summer at Goose Bay! The weather was not always on our side this summer, but you came out anyway. All the events have been a lot of fun and many have participated. We started this year again with our Goose Bay Clean-Up and Poker Run. Great turn out! At the end of the day most of the campsites were looking good and the Poker Run was a blast! It is a great way to meet people! CeCe especially enjoyed the Poker Run as she walked away (or danced away) a Winner! The holiday weekends were packed and the entertainment was good! Our Annual Seafood Festival was “off the chart” this year. I would mention those that went out to catch all those fish but I know I would forget a few – but thanks so much! Mr. Larry and Kenny did a fabulous job cooking the fish – and we can’t forget Walter, our Crab King who cooked all the crabs and chipped in some of his own so that we would not run short! Again, all the events at Goose Bay turn out so good because we have such great people that help out!

WINTER INFO . . . BOATERS AND CAMPER'S PLEASE READ

- The water in the campground will be turned off on or about November 15th.
- The gate will be locked at dark after November 15th. If for some reason you need to come to Goose Bay after dark, please give us a call.
- CAMPER'S - Please clean up your area around your camper before storing for the winter. Everything should be put away - you never know what Mother Nature will bring during the cold winter months.
- CAMPER'S - Your winter storage for November thru March is \$300. We will only send out the bill in November for the full \$300 plus any unpaid electric. If you have left anything at all plugged in, you will also have some electric charges. You may pay this all at one or pay \$60 a month. You are responsible for remembering this payment is due on the 1st of the month. Late charges will be added if it is not paid on time.
- BOATERS - Just because you are winterized, and covered up does not mean that you shouldn't check on your boat periodically throughout the winter. Winds - rain - snow - all can loosen covers and we cannot be responsible to watch out for all the boats in the field. Don't forget about your boats this winter.
- CAMPER'S AND BOATERS - Be sure we have your email address. We have tried to use email to communicate information this summer so if you have not received any emails from Goose Bay then we probably do not have your current email address. We will also post important information on our website.

Thanks for another great season! Have a great winter! Stay warm! We will be here so stop by and visit over the winter months! God Bless!
